Hybrid | Ocean

We have enhanced the already impressive Ocean range of hybrid flooring by incorporating a pre-attached acoustic underlay that effectively reduces noise. This makes it an ideal choice for homes with multiple levels, high-traffic rooms, and apartments. Not only does this flooring solution offer exceptional durability but it also provides a quieter and more tranquil environment.

- ✓ Anti-scratch layer
- ✓ Water-resistant flooring
- ✓ 2g click system
- ✓ Pet friendly
- ✓ Child friendly

Clever features list

Sleek boards create a timeless and spacious aesthetic that offers simplicity and versatility making it suitable for a wide range of sizes and styles.

Build in underlay attached directly to the underside of the planks, offers excellent sound insulation, reducing noise transmission between rooms and creating a quieter environment. It also provides a cushioned feel underfoot, enhancing comfort and reducing strain on joints.

Combines a water-resistant surface with a water-resistant core to provide comprehensive protection against spills, moisture, and water, ensuring both surface and core are less affected. Ideal for more areas of your home or project.

Higher scratch resistance and ability to deal with throwing, dropping and banging of toys and other objects make this collection suitable for families. Relatively high water resistance also helps with spills that don't sit for long periods of time.
